

## Short "Answers" to Boat Thoughts at 30 Seconds

Boat	Thoughts at 30 seconds
A	Not bad position. Don't drift down. Don't let B accelerate first.
B	Good hole to leeward. Go when it's time.
C	I'm in trouble. Can I back up slightly and duck D?
D	Good hole to leeward. Very close to the line: try to stay head to wind and delay acceleration.
E	I'm behind. Can't see the ends. Need to move up without falling too far into F.
F	Not much gap to leeward. Try to shoot up or crab to windward.
G	Good position. Don't drift down too far. Go when it's time. Watch for a crazy move by H.
H	I'm in trouble. Need to bail out. Gybe and sail back above the layline. Double tack probably not possible given limited space.
